PostgreSQL Mid-level

## Experience

### Global Engineer

Perficient • July 2022 - Present

My responsibilities are to develop new features for Ace hardware Customer Mobile App where with my team we increase the app engagement and the time spent on the app by 56% and set our client app at #100 in Shopping in the US App store.

React

React Native

Firebase

GitHub

### Software Developer

Biva • May 2021 - July 2022

Biva is a mobile healthcare app that is focused on old people. In my 1 year and a half of work, we increase the UX quality and the app performance by 30%. We reduce the app size by 40% and develop big features such as a custom CMS.

React

React Native

Firebase

Google Cloud

GitLab

GitLab CI

### Junior Full stack developer

Datbig • February 2020 - February 2021

DatBig was a data science startup with the goal of increasing our client's value with their data. My responsibilities are designing, implementing, and deploying all the company projects for our clients. Some of the most important clients were Universidad Militar de Nueva GranadaDatBig

Next.js

React

Gatsby

NodeJS

PostgreSQL
